

PICHICHI® Solution

POTTY TRAINER FOR DOGS.

Potty trainer for dogs. Teach your dog where to pee and poop.

Technical Specification

SPECIES

Dogs.

DOSAGE FORM

Solution.

THERAPEUTIC ACTION

Potty trainer for dogs.

COMPOSITION

Demineralized water, Ammonium chloride, Sodium bicarbonate, Ammonia, Colorant.

INDICATIONS

Potty trainer for dogs. Teach your dog where to pee and poop.

MODE OF APPLICATION

Apply 5 - 10 drops of PICHICHI® in the place where you want your dog pees and poops.

Make sure your pet smells the place where you applied PICHICHI® in order to get an optimal result.

Apply it directly on a cloth, cardboard or newspaper and let it in the intended place since they preserve the product action longer. Repeat frequently this operation, especially after meals, at the morning and evening.

Apply PICHICHI® every day until your pet becomes accustomed to pee and poop in the intended place; then, it is only necessary to apply PICHICHI® once or twice a week.

ROUTE OF ADMINISTRATION AND DOSAGE

For external use.

WARNINGS

- This product should not be eaten.
- Keep out of reach of children

PRESENTATION

20 mL
