We are a pharmaceutical laboratory involved in the manufacturing, import, development, distribution and sale of veterinary products.

The development of science in general, and particularly the veterinary science, has been our main concern from 1950. Over 60 years, we have been at the forefront of the pharmacology applied to prevent and treat the diseases affecting the different species of animals. We have addressed responsibly the scientific and technological advancement, and committed to be active players for the benefit of the animal health and a healthy livestock production.

We are proud to put at the service of the Veterinary Medicine, a modern pharmaceutical plant. In an area of 20,000 m², it was built a laboratory of 12,000 m², with modern facilities and equipment for activities of manufacture, quality control and quality assurance.

We have a wide range of medications intended to cover a large therapeutic spectrum, including over 200 pharmaceutical specialties, all of them manufactured in accordance with the Good Manufacturing Practice and certified with the highest standard of quality. All our pharmaceutical products have a health authorization, in accordance with the requirements established by the relevant regulatory authority, the Agriculture and Livestock Service.

MISSION

Create a working environment where the coexistence between professionals, technicians and personnel of Drag Pharma Laboratory is pleasant, based on respectful, supportive and decent relationships.

Have the technical and scientific means of the latest generation, along with a highly qualified work team in order to offer to the Veterinary Medicine a high quality, safe and effective pharmaceutical portfolio. We want to contribute, in a direct and responsible way, to the diagnosis and treatment of different diseases affecting to both pet animals and production animals, and thus contributing to the development of the animal stock in our country.

VISION

Build a relationship of trust with the Veterinary Doctor, based on the respect, seriousness and responsibility, in order to participate in the construction of a better world.

Be able to contribute, through our contribution to the animal healthcare, in the construction of an increasingly harmonic and integrated environment with our pet animals. Also, be able to contribute for achieving a better nutrition of human being and solving the world hunger, offering greater and better alternatives to livestock health.

PIPETTES

- 1 **FIPRODRAG® Cat** 
External antiparasitic drug in pipette
Topical solution

COMPOSITION

Each mL of solution contains:

Fipronil.....100 mg

Excipients q.s.p.....1 mL

Pipette with 0,5 mL.

Indicated for the treatment and control of fleas and mites infestation in cats.

- FIPRODRAG® Dog** 
External antiparasitic drug in pipette
Topical solution

All presentations

Effective action against fleas, lice and ticks in dogs.

COMPOSITION

Each mL of solution contains:

Fipronil.....100 mg

Excipients q.s.p.....1 mL

- 2 **FIPRODRAG® Small Dog Breed** 
Pipette with 0.67 mL for dogs up to 10 Kg body weight

- 3 **FIPRODRAG® Medium Dog Breed** 
Pipette with 1.34 mL for dogs of 10 Kg up to 20 Kg body weight

- 4 **FIPRODRAG® Large Dog Breed** 
Pipette with 2.68 mL for dogs of 20 Kg up to 40 Kg body weight

- 5 **FIPRODRAG® Giant Dog Breed** 
Pipette with 4.02 mL for dogs of 40 Kg up to 60 Kg body weight

SPRAY SOLUTION

- FIPROKILL® Spray**  
External antiparasitic drug
Spray Solution

COMPOSITION

Each 100 mL of solution contains:

Fipronil.....0,25 g

Excipients q.s.p.....100 mL

Effective in the control and treatment of fleas and ticks infestation in dogs and cats from 2 days of age, giving a rapid knock-down effect against adult fleas.

Presentations

50 mL, 100 mL y 250 mL

1 CATTI® Collar

Antiparasitic collar

Antiparasitic flea collar for cats

COMPOSITION

Each collar contains:

Dichlorovinyl phosphate (Dichlorvos).....4,8 g
Plastic resins q.s.p.....100,0 g

2 DOGUICAN® Collar

Antiparasitic collar

Antiparasitic flea collar for dogs

COMPOSITION

Each collar contains:

Dichlorovinyl phosphate (Dichlorvos).....4,8 g
Plastic resins q.s.p.....100,0 g

NISCLEREX® Collar

Antiparasitic collar

Antiparasitic flea collar for dogs

COMPOSITION

Each collar contains:

Permethrin 10% (Low-toxicity pyrethroid)
Excipients q.s.p.....1 collar
Extra-long:: 60 cm

COLLARS

1 SINPULKILL® Collar for Cats

External antiparasitic product

Collar

COMPOSITION

Each 100 g contain:

Diazinón.....15,0 g
Inert substances q.s.p.....100,0 g

4-Month flea control.

2 SINPULKILL® Collar for Dogs

External antiparasitic product

Collar

COMPOSITION

Each 100 g contain:

Diazinón.....15,0 g
Inert substances q.s.p.....100,0 g

4-Month flea control.

3-Month protection against ticks. .

PIPETTES

SINPULSPOT® Plus 
External spot-on antiparasitic drugs
Topical solution

All the presentations

Effective action against fleas, lice and ticks in dogs.

COMPOSITION

Each dose of 1 mL contains:

Permethrin (2S/7S cis/trans).....	325 mg
Piperonyl Butoxide.....	325 mg
Methoprene.....	37,5 mg
Excipients q.s.p.....	1,0 mL

Effective action during 4 weeks.

1 **SINPULSPOT® Plus Small Breed**

Display with 1 Pipette of 1 mL
For dogs up to 5 kg of body weight

2 **SINPULSPOT® Plus Medium Breed**

Display with 1 Pipette of 2 mL
Carton box with 1 Pipette of 2 mL
For dogs between 5 Kg and 15 Kg of body weight

3 **SINPULSPOT® Plus Large Breed**

Display with 2 Pipettes of 2 mL
Carton box with 2 Pipettes of 2 mL
For dogs over 15 Kg of body weight

SPRAY SOLUTION

SINPUL® Spray 
External antiparasitic drug
Topical solution

COMPOSITION

Cada 100 mL contiene:

Permethrin.....	0,2 g
Piperonyl Butoxide.....	2,0 g
Excipients q.s.p.....	100,0 mL

It is indicated to eliminate fleas and ticks in dogs.

SINPUL® Shampoo

External antiparasitic shampoo

COMPOSITION

Each 100 mL of shampoo contain:

Permethrin..... 1,0 g
Propoxur..... 0,1 g
Excipients q.s.p..... 100 mL

It is indicated to eliminate fleas and ticks in dogs.

DRY SHAMPOO

1 SINPULDRY® Cat

External antiparasitic product
Topical powder

COMPOSITION

Each 100 g contain:

Carbaryl..... 2 g
Excipients q.s.p..... 100 g

It is indicated to eliminate fleas, lice, ticks and mites in dogs.

2 SINPULDRY® Dog

External antiparasitic product
Topical powder

COMPOSITION

Each 100 g contain:

Carbaryl..... 2 g
Excipients q.s.p..... 100 g

It is indicated to eliminate fleas, lice, ticks and mites in cats.

1 DORAZEL® Shampoo

External antiparasitic shampoo

COMPOSITION

Each 100 mL of shampoo contain:

Permethrin..... 1 g
Excipients q.s.p..... 100 mL

It is indicated to eliminate fleas, ticks and lice in dogs.

2 DORAZEL® Plus Shampoo

Shampoo antiparasitario externo

COMPOSITION

Each 100 mL of shampoo contain:

Permethrin..... 1 g
Piperonyl Butoxide..... 2,5 g
Excipients q.s.p..... 100 mL

It is effective to eliminate fleas, ticks and lice in dogs.

External Antiparasitic Drugs

1 SINPUL® 30

External antiparasitic product
Powder for dispersion

COMPOSITION

Each sachet contains:

Coumaphos.....4,5 g

Excipients q.s.p.....15 g

Product indicated for the treatment and control of ectoparasites in dogs, such as: fleas, lice and ticks.

2 SINPULKILL®

External antiparasitic product
Topical solution

COMPOSITION

Each 100 mL contain:

Diazinon.....60 g

Excipients q.s.p.....100 mL

It is indicated to eliminate fleas, ticks and lice in dogs.

1 CANISH® Balsamic
Shampoo for dogs
PROPERTIES
pH balanced skin care product. Canish® Balsamic is hypoallergenic, and does not contain irritating chemicals. It contains a conditioner, leaving the fur feeling smooth, shiny, and easy to comb.

2 CANISH® Extra Shine
Shampoo for dogs
PROPERTIES
Revitalizes the shine of fur from the root to tip. Leaves a deep gloss, protects against dust and dirt, gives smoothness and moisturization.

3 CANISH® Hypoallergenic
Shampoo for dogs
PROPERTIES
Frequent use shampoo, suitable for all kind of coat. Formulated with balanced pH for sensitive skin. Provides shine and smoothness. Specially recommended for sensitive skin, since it is hypoallergenic.

4 CANISH® Herb Extract
Shampoo for dogs
PROPERTIES
Its natural properties provide nutrition and shine, renovating the coat. Eliminates dryness, reduces grease and strengthens growth. Suitable for all type of coat, and can be used frequently. Enriched with herb extracts such as Sage, Rosemary and Nettle, which give to pet coat a natural tonifying effect.

5 CANISH® Foam
Dry Foam Shampoo
PROPERTIES
Provides cleanliness, shine and smoothness to pet coat, without the need for rinsing.

Shampoo and Dry Foam Product Line CANISH®

SUAVIPET®
Dogs and cats coat detangling lotion
Detangling Spray Solution
COMPOSITION
Dionized water, Amodimethicone, Dimethicone, Phenyl Trimethicone, fragrance and wetting agents.
PROPERTIES
Detangling spray for dogs and cats coat. SUAVIPET® is specially formulated with emollients and moisturizers to help detangling your pet's coat.

Perfumed dry shampoo TIDY®

TIDY® Dogs and Cats
Perfumed dry shampoo
Waterless cleaning powder
PROPERTIES
It has delicate scents to make the presence of pet more pleasant, besides the ingredients for cleaning the coat. Recommended for pets of small size, sick, or in winter time.

Detangling lotion SUAVIPET®

DRAG PHARMA®
CONFIABILIDAD TERAPEUTICA

1 SIR DOG® Black

Shampoo for black coat

PROPERTIES

Shampoo for black coat dogs, with Henna and Aloe Vera extracts. Fruit Fragrance.

4 SIR DOG® Odor Control

Odor control shampoo

PROPERTIES

Odor control shampoo with Piroctone Olamine, which controls the excess grease in coat.

2 SIR DOG® Bronze

Shampoo for bronze coat

PROPERTIES

Shampoo for bronze coat dogs, with Andiroba oil. Berry Fragrance.

Natural Cream of Matico, Marigold and Arnica
Topical cream

COMPOSITION

Each 100 g of cream contain:

Matico Extract.....	10 g
Marigold Extract.....	5 g
Arnica Extract.....	5 g
Vitamin E Acetate.....	4 g
Zinc Oxide.....	3 g
Excipients q.s.p.....	100 g

Cream prepared from natural extracts of Matico, Marigold and Arnica. It has healing, antiseptic, and anti-inflammatory properties.

IMMUNO-ENHANCING PRODUCT

1 CONDROVET®

Chondroprotective – Nutritional supplement
Oral tablet

COMPOSITION

Each tablet contains:

Glucosamine Sulfate.....	500 mg
Chondroitin Sulfate.....	400 mg
Vitamin C.....	33 mg
Manganese.....	5 mg
Excipients q.s.p.....	1 tablet

Fuente natural de aquellos elementos estructurales necesarios para la mantención del cartilago articular.

2 INMUNOPET®

Beta-glucan based additive
Oral suspension

COMPOSITION

ach 100 mL of suspension contain:

Beta-(1,3/1,6)-D-glucans.....	1,0 g
Excipients q.s.p.....	100 mL

Beta-glucans are natural polysaccharides isolated from Pleurotus ostreatus fungus, and are known for activating the immune system.

CHONDROPROTECTIVE

1 ECO-BOTON® Insect repellent button

COMPOSITION

Each button contains:

Geraniol.....4,25%

Inert substances q.s.p.....1 botón

Button for repelling fleas, ticks, mosquitos and flies.

2 CITRUSPET® Natural Insect Repellent Shampoo

COMPOSITION

Each 100 mL of Shampoo contain:

Citronella Oil, Aloe Vera, Excipients q.s.p.. 100 mL

Nutritional contents:

Each 1 mL contains:
 Linoleic Acid (LA).....350,0 mg (min.)
 Alpha-Linolenic Acid (ALA).....8,5 mg (min.)
 Ácido alfa Linolénico (ALA).....60,0 mg (min.)
 Oleic Acid (OA).....180,0 mg (min.)
 Vitamin E.....46 UI
 Vitamin A.....200 UI
 Vitamin D.....20 UI
 Omega-6 : Omega-3 Ratio = 10:1 to 5: 1

2 SUPERPET® Adult

Nutritional Supplement of Fatty Acids and Vitamin E
Oral solution

INGREDIENTS

Sunflower oil, Borage oil, Salmon oil, DL-Alpha-Tocopheryl Acetate (Vitamin E), flavors.

Nutritional contents:

Each 1 mL contains:
 Linoleic Acid (LA).....439,8 mg
 Gamma-Linolenic Acid (GLA).....9,96 mg
 Eicosapentanoic Acid (EPA).....21,06 mg
 Docosahexanoic Acid (DHA).....28,91 mg
 Vitamin E (as Acetate).....46 UI
 Omega-6 : omega-3 ratio = 8.6 : 1

3 SUPERPET® Senior

Nutritional Supplement of Fatty Acids, Vitamin E and Lecithin
Oral solution

INGREDIENTS

Sunflower oil, Salmon oil, Borage oil, Vitamin E Acetate, Soy Lecithin, authorized flavors.

Nutritional contents:

Each 1 mL contains:
 Linoleic Acid (LA).....320,0 mg (min.)
 Gamma-Linolenic Acid (GLA).....8,0 mg (min.)
 Eicosapentanoic Acid (EPA).....12,0 mg (min.)
 Docosahexanoic Acid (DHA).....10,0 mg (min.)
 Oleic Acid (OA).....120,0 mg (min.)
 Lecithin.....10 mg (min.)
 Vitamin E (as Acetate).....46 UI
 Omega-6 : Omega-3 ratio = 10:1 to 5: 1

4 SUPERPET® Cat

Nutritional Supplement of Fatty Acids and Vitamin E
Oral solution

INGREDIENTS

Sunflower oil, Borage oil, Salmon oil, DL-Alpha Tocopheryl Acetate (Vitamin E), flavors.

Nutritional contents:

Each 1 mL contains:
 Linoleic Acid (LA).....439,8 mg
 Gamma-Linolenic Acid (GLA).....9,96 mg
 Eicosapentanoic Acid (EPA).....21,06 mg
 Docosahexanoic Acid (DHA).....28,91 mg
 Vitamin E (as Acetate).....46 UI
 Omega-6 : Omega-3 ratio = 8.6 : 1.

Vitamin and Mineral Supplements

JUVECAN® Paste

Vitamins, minerals and amino acids

Oral paste

COMPOSITION:

Calcium Triphosphate, Choline chloride, Lysine hydrochloride, Methionine, Vitamin E, Sodium glutamate, Magnesium carbonate, Iron II Sulfate Anhydrous, Nicotinic Acid, Vitamin A, Calcium pantothenate, Vitamin D3, Manganese sulfate, Zinc oxide, Menadione Sodium Bisulfite, Vitamin B2, Vitamin B12, Vitamin B1, Vitamin B6, Cobalt chloride, Potassium iodide, Folic acid, Biotin, Authorized flavors, excipients.

HERPLEX-L®

Nutritional Supplement of L-Lysine

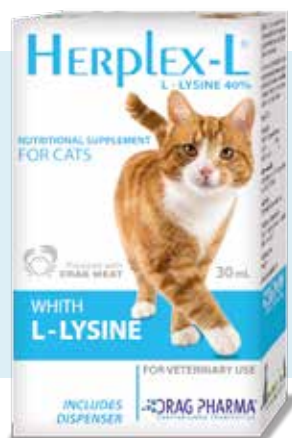

Oral suspension

COMPOSITION

Each 1 mL of suspension contains:

L-Lysine.....400 mg
Excipients q.s.p.....1 mL

Highly palatable nutritional supplement. L-Lysine is a key amino acid for growing cats, helping to obtain a rapid weight gain.

CALCIDOG®

Balanced Supplement of Calcium, Phosphorus and Vitamin D

Oral tablet

COMPOSITION

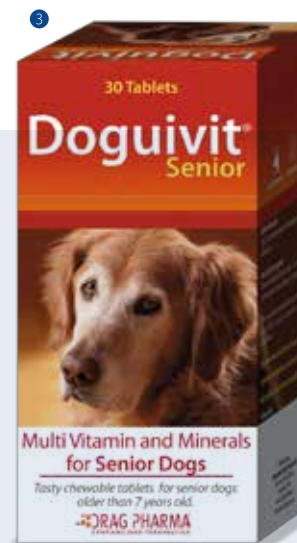

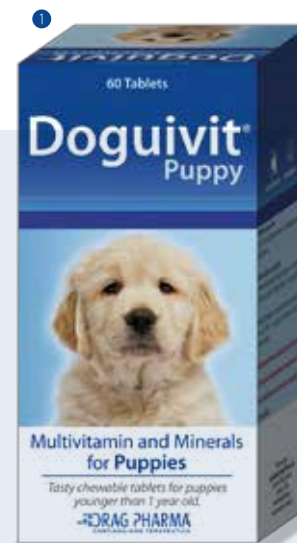

Each tablet contains:

Calcium Phosphate Dibasic x 2H2O.....0,7777 g
Calcium Sulfate x 2H2O.....1,2777 g
CHolecalciferol (Vitamin D3).....400 UI
Excipients q.s.p.....1 tablet

It is indicated during growth, pregnancy or lactation, and also in deficiencies of Calcium, Phosphorus and Vitamin D.

Vitamin and Mineral Supplements

It is indicated in animals with deficiencies of the vitamins and minerals formulated, in the growth, pregnancy, lactation, stress or convalescence.

1 DOGUIVIT® Puppy

Multivitamin and Mineral for Puppies
Oral tablet

COMPOSITION

Each tablet contains:

DL- Methionine.....	10 mg
Lysine Hydrochloride.....	2,5 mg
Calcium Pantothenate.....	0,45 mg
Nicotinamide.....	1,8 mg
Riboflavin-5-Phosphate.....	0,45 mg
Vitamin B1.....	0,15 mg
Vitamin B6.....	0,15 mg
Vitamin B12.....	0,1 µg
Vitamin A.....	500 UI
Vitamin D.....	50 UI
Vitamin E.....	1 UI
Calcium.....	138 mg
Phosphorus.....	108 mg
Magnesium.....	5 mg
Iodine.....	0,025g
Zinc.....	0,05 mg
Copper.....	0,1 mg
Potassium.....	25 mg
Sodium.....	25 mg
Iron.....	1 mg
Manganese.....	0,5 mg
Excipients q.s.p.....	1 tablet

2 DOGUIVIT® Adult

Multivitamin and Mineral for Adult Dogs
Oral tablet

COMPOSITION

Cada comprimido contiene:

Iron Sulfate Anhydrous.....	25,84 mg
(Equivalent to 5.2 mg of Iron (base))	
Cyanocobalamin 1% FG.....	0,80 mg
(Equivalent to 0.008 mg of Vitamin B12)	
Folic Acid.....	0,2 mg
Riboflavin 5-phosphate, sodium salt.....	1,37 mg
(Equivalent to 1.0 mg of Riboflavin (as base))	
Nicotinamide.....	10,0 mg
Retinyl Acetate (Vitamin A).....	1250 UI
Cholecalciferol (Vitamin D3).....	125 UI
dl-alpha-Tocopheryl Acetate (Vitamin E).....	2 UI
Pyridoxine Hydrochloride (Vitamin B6).....	1,0 mg
Thiamine Hydrochloride (Vitamin B1).....	1,0 mg
Calcium Pantothenate.....	0,5 mg
Calcium Hydrogen Phosphate.....	258,0 mg
(Equivalent to 60 mg of Calcium and 465 mg of Phosphorus)	
Magnesium Sulfate heptahydrate.....	10,23 mg
(Equivalent to 1.0 mg of Magnesium).	
Excipients q.s.p.....	1 tablet

3 DOGUIVIT® Senior

Multivitamin and Mineral for Aged Dogs
Oral tablet

COMPOSITION

Each tablet contains:

Folic Acid.....	0,2 mg
Dried extract of Schizandra.....	30 mg
Chondroitin Sulfate.....	100 mg
Calcium Pantothenate.....	0,5 mg
Calcium.....	60 mg
Phosphorus.....	46,5 mg
Magnesium.....	1,0 mg
Nicotinamide.....	10,0 mg
Riboflavin 5 Phosphate, Sodium.....	1,37 mg
Vitamin A.....	1250 UI
Vitamin D3 1:100.000.....	125 UI
Iron (II) Sulfate.....	25,84 mg
Vitamin E.....	2 UI
Thiamine Dichloride (Vitamin B1).....	1,0 mg
Pyridoxine Hydrochloride (Vitamin B6).....	1,0 mg
Vitamin B12.....	0,008 mg
Excipients q.s.p.....	1 tablet

Vitamin and Mineral Supplements

MILK REPLACER

DRAG PHARMA
CONFIABILIDAD TERAPEUTICA

1 MAMISTOP® Cat Kitten Milk Replacer

Oral powder

INGREDIENTS

Skimmed milk powder, whole milk powder, sodium caseinate, lactose, dried powdered egg, Taurine, Zinc (as Sulfate), Manganese (as Sulfate), Iron (as Sulfate), antioxidant and preservative agents.

Guaranteed Analysis (as powder):

Protein, min.40%
Fat, min.21%
